TERRASSES DU LARZAC / LANGUEDOC

## MAS COMBARÈLA

Artisanal domain born of a passion for wine, Mas Combarèla was founded in 2016. After an international career in Marketing in Asia and Europe, Olivier Faucon decided in 2013 to become winegrower.

Three years later, we have given birth to our boutique winery : **MAS COMBARÈLA**. Located in the French department of Hérault in Languedoc, we have selected 12 hectares of vineyard with **exceptional terroirs**, dominated by limestone and altitude, entirely certified AOP Terrasses du Larzac.

We have built a wine cellar with modern and high-performance equipments, allowing tailor-made selected plot winemaking, in order to elaborate **qualitative fine wines**.

We immediately decided to convert to **Organic Agriculture**, certified as of 2019. During their growth, our grapes are looked after with the greatest care, in harmony with the Nature. The sun, winds, flora and fauna are our best allies to cultivate the vines in a healthy and environmentally friendly way. As our mascot, the gecko, does by naturally eliminating certain insects, we foster biocontrol and natural regulation.

We chose an artisanal approach to give priority to quality over quantity, to craft great wines, focused on pleasure and elegance.

At the vineyard : hand picking harvests, rigorous sorting including green harvesting help us ensuring an optimum maturity and good sanitary conditions to get sound grapes. We keep yields to very low levels (about 25 hl/ ha).

At the cellar, hygiene and temperature control are essential. For the vinification, we use thermo-regulated stainless steel vats. Last but not least, wooden tanks, oak barrels, stoneware jars and concrete egg-shaped tanks are used for aging and maturing process, in order to obtain complex and fine wines for your pleasure.
